Regarding: Himco Waste Away
Himco, Inc.

Lithotone is a commercial printing company. We produce both web and sheetfed lithography. All of our waste paper, coated and uncoated, is sold for recycling. All of our solvents are picked up by a licensed disposer for regenerating.

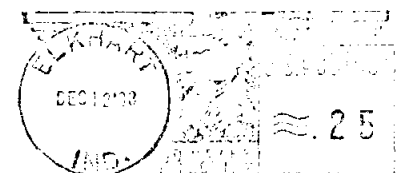

Our general trash is placed in a Himco container and picked up three times per week. To the best of my knowledge, we have never placed any hazardous waste in the Himco containers.

If you have any questions, please call.

Sincerely,

Charles J. Eaton
